## Relevance, Pertinence, Relevanz

The following grid lists some of the projects and strategies developed by PlurCur<sup>1</sup> or EOL partner schools which enriched the language learning environments. These initiatives are classified by their sustainability (from unique to lifelong approaches) and their degree of formality (from non-formal to formal approaches).

Le tableau suivant répertorie quelques-uns des projets et stratégies développés par les écoles partenaires de PlurCur<sup>1</sup> ou EOL qui ont enrichi les environnements d'apprentissage des langues. Ces initiatives sont classées en fonction de leur caractère pérenne (des approches uniques aux approches durables) et de leur formalisation (des approches non formelles aux approches formelles).

Der folgende Raster listet einige der Projekte und Strategien auf, die von PlurCur<sup>1</sup>- oder EOL-Partnerschulen entwickelt wurden und die Sprachenlernumgebungen bereicherten. Diese Initiativen werden nach ihrer Nachhaltigkeit (von einmaligen bis zu dauerhaften Ansätzen) und ihrer Formalisierung (von nicht formalen bis formalen Ansätzen) klassifiziert.
